

## Couplings according French Standard

A symmetrical quick connection coupling with and without locking ring. Firebrigades are mainly using quick connection couplings type DSP (NF S 61 704) and AR (NF S 61 705), for industrial application generally couplings type Guillemain (NF 29 572) are in use. Identical sizes of the different systems can be matched. To illustrate the fitting possibilities.

- Aluminium alloys (A)
- Copper alloys (C)
- High grade steel (St)

### Blank caps and plugs DSP / AR with chain, with locking ring
