

Foam attachment for HS-Nozzles

To be fitted on nozzles HS 12 and HS 16. To be used together with foam inductors Z2 (HS 12) and Z4 (HS 16), for adding wetting agent as well as low expansion and medium expansion foam agents. Depending on full or spray jet setting of the nozzle, expansion ratios between "0" and "20" can be achieved.

Description / Type	Length (mm)	Width (mm)	Weight (kg)	Ident-No.	Remarks
HS 12 & HS 16	225	150	1,550	30002233
