

- Aluminium alloys (A)
- Copper alloys (C)
- High grade steel (St)

Multi-purpose nozzles, aluminium

7405 B

Handling sequence: shut-off - spray - full jet The spray pattern changes continuously from spray to full jet, therefore also continuous increasing of the reaction forces and easy to operate.

Inlet Tail (mm)	Nozzle dia. x tip dia. (mm)	Length (mm)	Width (mm)	Height (mm)	Weight (kg)	Ident-No.	Remarks	Alloy
