### Euro nozzles DIN EN 671

7400 A

Mini nozzle for dimensionally stable hoses on hose reels. Infinitely variable by turning the head clockwise from shut-off to spray to 90° to full jet. Flow rate and throw distance conform to DIN EN 671 - in conjunction with the used hose reel. Information about the test results and approvals for AWG Euro nozzles as well as the possibility to use them on electrical installations is available upon request.

7400 B

7400 C
